In Native American Culture, the drum is more than a musical instrument; it is a living entity, a spiritual guardian, and a direct connection to the heartbeat of Mother Earth. From intimate ceremonies to vibrant powwows, the drum's rhythm carries the songs, stories, and prayers of the people. Often called the grandfather drum, it is said that the reason why this drum was made was to bring people together and share information among each other.

Bring your thoughts and ideas for an evening of sharing and collaboration.

Brought to you by Sault Tribe Community Health Education. Supported by Tribal Practices for Wellness in Indian Country Project. Made possible with funding from the Centers for Disease Control and Prevention.
